

# GE Picket Lines Are Disappearing

By TOM CRANE

Associated Press Writer  
Picket lines began disappearing from the GE plants in 10 days after the first time in 100 days when the nation's largest electrical company, General Electric Co., in 130 offices across the nation today, as strike settlements were finalized by the company's two big electrical unions.

It was a happy occasion for many of the 104,000 members of the two unions who were picketing in some of the most bitter weather of the winter.

The AFL-CIO International Union of Electrical Workers, with about 8,000 members in several of its 71 GE locals still not reported, said a membership vote at midmorning showed "about 55,000 for ratification and 17,000 opposed."

The independent United Electrical Workers said a complete count of its 28 locals showed three small locals in Oakland and Ontario, Calif., and Johnson City, N.Y., opposed to ratification. The three locals were said to represent about 700 of the 16,000 UE members working for GE.

While formal notification of the ratification by the IUE and UE, both bargaining nationally, was being given to GE officials at the company headquarters in New York, locals of the two unions were making arrangements at the various plants to resume work.

The pattern generally was one of sending in an advance force of maintenance and start-up personnel today to prepare for the orderly return of production employees, probably starting Thursday.

The pact, announced last Thursday, provides pay increases over 40 months ranging from 61 to 82 cents an hour, depending on the cost-of-living clause. The average hourly pay for GE's 310,000 domestic employees had been \$3.25.

The smallest of the 12 unions that struck GE also accepted a contract Tuesday. The 150-member GE local of the AFL-CIO American Flint Glass Workers ratification when locals in Rome, Ga., and Lynn, Everett and Wilmington, Mass., voted to accept, "although GE's largest Union in Logan, Ohio," accepted terms similar to the IUE and UE contracts.

But the other nine unions still must sign a total of 80 contracts negotiated on the plant level. Some of the locals vote today on contract offers, while others are still negotiating.

How soon all 130,000 strikers in 135 cities will be back on the job remained unclear.

The IUE, which represents 88,500 GE workers, confirmed local, in Schenectady, N.Y., rejected the offer.

## Mass Transit Bill May Hit House Snag

WASHINGTON (AP) — After a relatively smooth ride through the Senate, a \$3.1 billion mass transit subsidy bill may face rougher going in the House as supporters begin the push for final action this session.

The Senate gave the measure overwhelming 83-4 passage Tuesday, bolstering the hopes of sponsors that the House's traditionally less-friendly attitude to such legislation can be overcome.

The House Banking Committee announced the start of public hearing March 2 on the bill. But the real trouble could come in the powerful House Appropriations Committee.

That committee is expected to oppose the contract authority feature of the bill, feeling it amounts to backdoor financing.

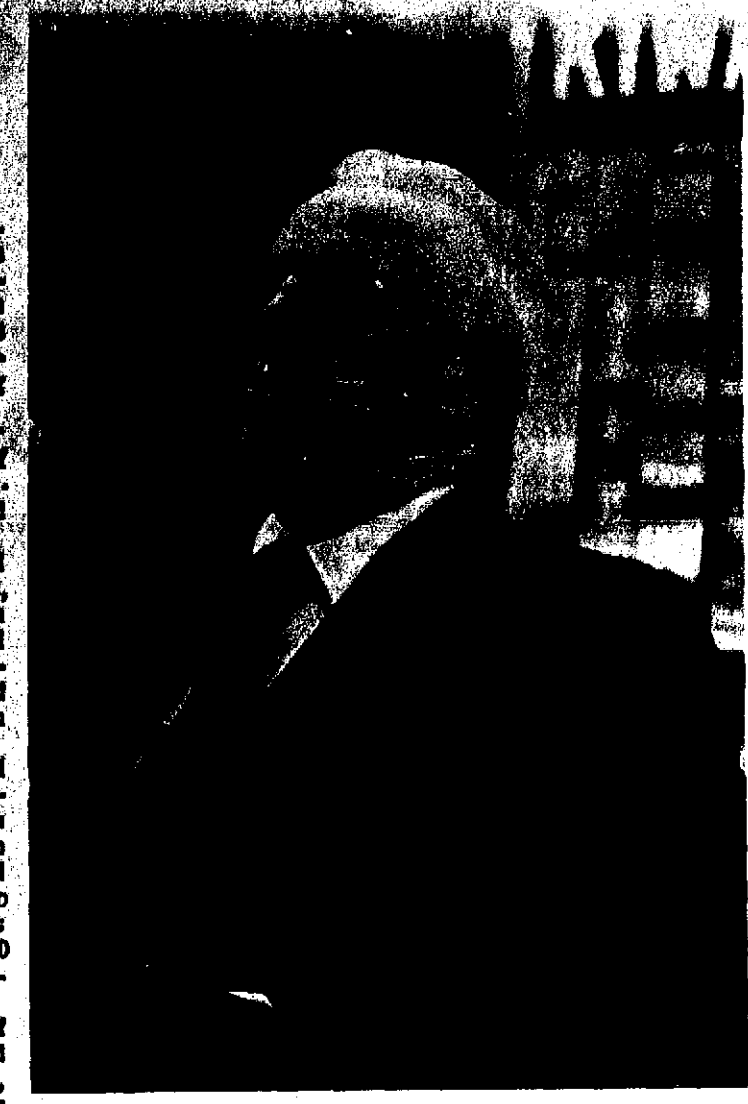

But Senate sponsors said the new federal grants and loans proposed under the measure would save many subway systems now on their last legs, make it possible to start new ones in cities across the nation, cut traffic congestion, and reduce air pollution.

Originally, supporters hoped for a bigger program, wanting the aid to come through a trust fund as highway spending is financed.

But President Nixon rejected the trust fund idea. This led to a compromise under which the contract authority provision was substituted.

In addition the total authorization was held to \$3.1 billion instead of the \$10 billion originally suggested, and strict limits were put on the amounts that actually could be spent in the early years.

# Discussed School Needs

— Henry Haynes photo with Star Camera  
JAMES H. JONES

George Frazier presented James H. Jones, Superintendent of Schools, as the speaker at the Tuesday noon meeting of the Kiwanis Club.

Mr. Jones spoke on the need for maintaining a quality education program in the local schools. He pointed out that although Hope was in the top 10 per cent of the schools in the state in size it was in the lowest quarter in the amount of local financial support for each child.

Mr. Jones presented graphs and charts to illustrate that of North Central Association member schools in south and southwest Arkansas Hope was near the bottom in local financial support and teacher salary schedule. He pointed out that the greatest

need for increased local financial support was for an adequate teacher salary schedule to attract and keep a qualified staff of teachers.

Other pressing needs are: to acquire land at the Yerger Junior High School site, expand vocational education at Hope High School, and to provide instructional materials to aid teachers in individualizing instruction.

Mr. Jones said that the tax increase which the Board of Education was asking the voters to approve in the March 10 school election would be small compared to the cost of \$40.00 per month for educating each child which is the amount currently being spent on each child per month.

## Warmer Air Expected in Arkansas

By THE ASSOCIATED PRESS  
Warmer air is expected to spread across Arkansas by tonight.

The warmer air may bring some widely scattered showers over eastern and southern sections of the state late tonight and Thursday.

Pacific air is spreading eastward across the Rockies behind a low pressure trough and is expected to bring slightly cooler temperatures into Arkansas again Friday, the U.S. Weather Bureau says.

Highs Tuesday ranged from 21 at Harrison to 34 at El Dorado.

Overnight lows included 12 at Harrison, 13 at Jonesboro, 14 at Fayetteville, 15 at Little Rock and Memphis, 19 at Fort Smith, 20 at Pine Bluff, 21 at El Dorado, and 29 at Texarkana.

No precipitation was reported in the 24-hour period ended at 7 a.m. today.

## 23 ENEMY (from page one)

names started running out from everywhere."

Intelligence sources said the troops apparently were from the Dong Nai Regiment, which was a r h e d an offensive against Saigon in May 1968 and was badly mauled. The sources said the regiment is still under strength and short of arms, ammunition and food, but they expect it to be active during the Tet period in the area north of Saigon.

Little other fighting was reported as Tet, the lunar new year holiday, approached. A four-day Viet Cong cease-fire is scheduled to begin at 7 a.m. Thursday—6 p.m. today, EST—and a 24-hour allied truce is to start 11 hours later.

American air cavalrymen and helicopter gunships reported killing 52 North Vietnamese soldiers in two clashes along the Cambodian border north of Saigon. No American casualties were reported.

American and South Vietnamese forces said they killed another 59 enemy troops in three clashes south of Da Nang. Two South Vietnamese soldiers were killed and two Americans and five South Vietnamese wounded.

The U.S. Command reported 31 enemy rocket and mortar attacks but said only 11 caused casualties or damage.

## Obituaries

MRS. BERTHA LOIS HARRIS  
Mrs. Bertha Lois Harris, 65, died Tuesday in a Texarkana Hospital. She was a lifelong resident of Nevada County, a retired school teacher and a member of the Hickory Grove Church of Christ.

Surviving are a son, Edward Lee Harris, of Prescott; a daughter, Mrs. Billy R. Rayborn of Hampton; a brother, George Beatty of Emmet; seven sisters, Mrs. Lena Wesson of Prescott, Mrs. Clara Beatty of Emmet, Mrs. Lucy Stroop of Camden, Misses Hessel and Mary Beatty, both of Magnolia, Mrs. Ella Atkins of Emmet and Mrs. Edith Todd of Tulsa, Okla.

Services will be at 2:30 p.m. Thursday at Hickory Grove Church of Christ near Prescott. Burial in Pleasant Ridge Cemetery by Smith Funeral Home of Stamps.

## Nixon Orders Government to Halt Pollution

WASHINGTON (AP) — President Nixon, calling the federal government "one of the nation's worst polluters," today ordered all federal facilities to eliminate air and water pollution.

He set up a \$359 million program for the next three years to provide government leadership in the pollution control effort and called for all existing federal facilities to comply with his clear air and water order by Dec. 31, 1972.

Nixon said his order will affect buildings and installations, public works, aircraft and vessels and vehicles and property owned by or constructed or manufactured for the federal government.

Nixon has proclaimed improvement of the nation's environment as a prime priority of the 1970s.

And, he said in a statement issued at the White House today: "Over the past several years, the federal government has become one of the nation's worst polluters. Clearly the federal government cannot be an effective leader in the battle to save the environment so long as this intolerable situation continues."

## Body of Man Identified

EL DORADO, Ark., APY — The body of a man identified as James W. Hayes, 24, of Dumas City (Union County) was found Tuesday in a drainage ditch.

# NIXON (from page one)

impacted area aid program which Nixon has sharply criticized and for which he has devalued to budget any money for next year unless it is drastically revised. His new proposal would increase the appropriation for this year to \$440 million.

The program, which provides funds for school districts in which large numbers of children of federal employees are enrolled, has wide support in Congress. A total of \$600 million was provided for in the vetoed bill.

Nixon would also boost spending for vocational education by \$70 million to a new total of \$300 million, still \$52 million short of the amount in the bill. The other Nixon increases would be spread over a variety of health and education programs.

Whatever compromise the Appropriations Committee arrives at it is unlikely to satisfy the liberal Democrats who led the fight for the \$1.2 billion last year. Most of the increase was put in on the floor over the opposition of the committee.

Majority Leader Albert, who commented on the controversy in an interview, said he didn't think Nixon would veto another bill, but the Democrats would not be deterred by such a threat in any event.

"After all," he said, "the majority of the members voted to override the veto and we still are in control. If you come to an impasse who's going to give?"

## Quiet Heroes Give Blood Regularly

There is a special quality to the persons who give their lifeblood to help others. These people—your friends and neighbors—donate blood simply out of a desire to share with others.

A donor may be a factory worker, a farmer, a banker, a housewife, a veteran or serviceman, or a college student. But they have one thing in common. They know the importance of lifesaving blood. Their selflessness and their willingness to share this most precious commodity is a splendid example of real citizenship.

Regardless of their occupations, blood donors are the quiet unsung heroes. They give as casually as someone else might give a dollar to church or charity. Yet the value of their gifts cannot be measured in dollars.

Only in terms of people... the people whose lives they have helped to save.

What price would you place upon your life? Or the life of someone dear to you?

Each year the need for blood increases, as modern research finds new ways to use its healing power. This means that more donors... new donors... are needed in our community.

How do you define that quality that makes people give blood? Perhaps it needs no definition, only the recognition that it exists in those who give their blood... time and time again.

Will you be one of them when the Red Cross Bloodmobile have the chance to make this vital contribution on Tuesday, February 10th, between the hours of 12:00 noon and 6:00 p.m. at the First Presbyterian Church. There is no greater gift when the need for it arises. Please park in the rear of the church.

## GROUP (from page one)

race by comparing the numbers.

The convention defeated a proposal 28-51 that would have authorized the legislature to enact laws providing for contesting an election. William Prevett of El Dorado offered the proposal.

State Sen. Robert Harvey of Swifton said ballot secrecy was important, but he said he had "reached the decision that you cannot have election contests with an absolute secret ballot."

"I think it's more important to see that the person who gets the most votes is elected," Harvey said.

Replying to Mrs. Stuck's remark that "political intimidation through traceability of the ballot is one of worse evils," Harvey said political intimidation was no longer used as it was in the past.

Richard Arnold of Texarkana said necessary safeguards such as poll watchers who could contest the validity of a vote would be available under a secret ballot.

"Election contests are more increasingly rare and will get rarer as voting machines become more prevalent," Arnold said. "The secrecy of the ballot is much more fundamental in my mind."

"This is the most important decision we can make," said Mrs. Forrest Baker of Clinton.

# Senate Group Suggests Draft Changes to Make It Fairer, Uniform

By WILLIAM J. WAUGH  
Associated Press Writer  
WASHINGTON (AP) — A Senate subcommittee has called for sweeping executive and legislative changes in the Selective Service system to make the draft fairer and more uniform.

The subcommittee, headed by Sen. Edward M. Kennedy, D-Mass., called on the Nixon administration Tuesday to end occupational deferments immediately, student deferments in time of conflict, abolish state and local quotas, establish a uniform national policy and kick the military out of the Selective Service system.

"Of necessity," the subcommittee report said, "the military traditionally operates with less regard for individual rights and procedural niceties than we expect and require in civilian life."

The report suggested Congress consider the need for a selective conscientious objector status.

One committee witness proposed a draftee seeking such status should be "required to undergo noncombatant service of comparable risk to that undergone by draftee" and if this were not possible "to serve for a longer time."

The report said the lottery of last Dec. 1 which used birthdates to determine order of call-up did not actually achieve random selection.

"Instead," the report said, "birthdays from the end of the year were disproportionately near the top of the induction order."

The subcommittee concluded that "such disparity is extremely significant and must stem from the failure properly to mix the capsules containing the birthdates."

As a result, the report recommended that future random selection be achieved by use of computers.

The report said only hardship and high school deferments should be continued in time of conflict.

The report suggested the administration could restructure the system into a consolidated selective service system.

This would include a national headquarters to establish policy, eight regional offices to monitor uniform application and 300 to 500 area offices to "register and classify young men."

The subcommittee said the director and the staff of the system should be civilian, and the director should be limited to two terms of five years.

Included in the subcommittee's recommendations was the suggestion of a detailed appeal procedures that would permit a registrant to have counsel and call witnesses.

## TONE (from page one)

July, Soviet Foreign Minister Andrei Gromyko said the Middle East "exerts great influence on the situation of the world as a whole" and is a "dangerous hotbed which can have serious consequences."

Gromyko risked offending the Arabs by asserting Soviet willingness for a settlement involving "simultaneous recognition of all states of the Middle East, including Israel, to an independent national existence." Most Arab leaders deny that Israel has the right to independent existence in their midst.

If Moscow concedes Israel's right to live, it might also, in tense circumstances, concede a little more. Soviet and American positions on a prospective settlement are not far apart, and each power is in a position to bring pressure for de-escalation of the conflict.

Much more than Vietnam, the Middle East threatens to interfere with progress on other issues. The Russians probably are less agitated about Vietnam than they let on, but the Middle East is another case. Moscow has extended and committed itself and now has a considerable investment to protect.

The issue is the more difficult because it often has been a source of division in the Kremlin. This was so at the time of the 1956 Suez crisis and again during the 1967 war. Soviet hawks see the Middle East as of extreme strategic importance, and with each recurring crisis it has been evident that a group in the Soviet leadership has demanded a tough stance.

Soviet policy makers are now trying to encourage an all-European conference on security, even with the Americans taking part. The civilian leaders also show interest in exploring possibilities for easing the arms race.

# Four Killed, 10 Injured in Accidents

By THE ASSOCIATED PRESS  
Four persons were killed and 10 others were injured Tuesday in three separate traffic accidents on Arkansas highways.

In addition, two persons died Tuesday of injuries they suffered last Saturday in a two-car accident in North Little Rock.

State Police said Joyce Carolyn Ashcraft, 23, and Tina Elaine Ashcraft, 3, of near Pine Bluff died Tuesday night in a head-on collision on U.S. 270 about two miles west of Pine Bluff.

The injured were identified as George Leon Ashcraft, 27, driver of one of the vehicles, and Stephen Dwayne Ashcraft, 3, both of near Pine Bluff, and Franklin Eugene Lee, 22, driver of the other car, John Thomas Kimmer, 23, and Ira Jim Herring, 17, all of Sheridan.

State Police Trooper Chuck Medford said Lee's car caught fire after the head-on collision.

Eugene Williams, 34, of Memphis was killed and five other persons were injured when Williams' panel truck ran off Arkansas 38 about a mile east of Hughes and overturned three times.

Trooper Bill Mullenax said Williams lost control of the truck on a curve. Mullenax said the injured were treated at the scene and were not taken to a hospital.

Jessie L. Montgomery, 60, of Marianna was injured fatally Tuesday when he apparently lost control of his station wagon and it traveled 181 feet on the shoulder of U.S. 79 east of Marianna, struck a four-foot high driveway and sailed 156 feet through the air, bouncing another 100 feet after touching the ground, police said.

State Police said that Eva Mosley, 86, and Chris Davis, 3, both of North Little Rock died Tuesday of injuries suffered Saturday in an accident on Arkansas 5 in North Little Rock.

Three persons were injured. They were identified as J. H. Mosley, 51, Sandra K. Davis, 28, and Melinda Davis, 8, all of North Little Rock.

State Police said a car driven by Mosley ran a stop sign and struck an auto driven by Sandra K. Davis.

Lloyd's of London does not issue life insurance.

## Bearden Is Bobcat Foe Here Thurs.

By RALPH ROYCE  
Sports Editor

Seeking to start some personal vendetta, the Hope Bears have scheduled the Bearden Bears tomorrow night here at Jones Field House, possibly preceded by a senior girls game at 6:30 p.m.

Hope Coach John Roes finalized the additional date yesterday, as the Bears otherwise only had a Friday night trip to Magnolia slated for this weekend.

Bearden has just moved into District 7-A after consolidating with black Ouachita High School there, and the benefits of the basketball program have come to the Bears.

Also, they have a big 6-7 postman who will challenge Bobcat John Dudley and Larry Muldrew under the basket, and many of the starters are remnants of the Ouachita Junior High team at Bearden two years ago which won the state Class B championship.

By no means are the Bears to be taken lightly by the Bobcats, but it is a big game for Hope at this stage of the season. Confidence can only be built by winning, and the Cats tomorrow night will start improving on the present 9-9 record.

A good means toward starting this final charge was provided last night, as the "B" Lizards pulled out a 70-67 win over the Spring Hill Bears. This game at Spring Hill, and add to that the fact that Hope starters Lynn Norton, Steve Harris, and Tommy Webb fouled out before the final 2 minutes of play.

Hope's Larry Muldrew leads the 4-AA scoring department with 102 points in five conference games, a cool 20.4 ppg average. John Dudley is not far back with 80 points and a 16.0 ppg normal, but that pair's rebounding work is just as crucial in their overall play.

Junior forward Charles Rateliff is now fit after an ankle sprain felled him two weeks back, and he looked well with the "B" squad both offensively and defensively last night at Spring Hill.

Magnolia on Friday night will present their Panthers, as tough as anyone around. But so is Hope. The Panthers won the other meeting 52-47 here four weeks ago, and they are led most consistently by the shooting of such as Billy Daugherty, Lathell Mackeller, Jerry Caldwell, and others which Coach Connie Maloch can pull off the bench from last year's state AA junior boys champions.

Also Friday evening the Bobcats and the "B" Lizards will play, with the first game starting at 5:30 p.m. in the Magnolia High gym.

## STANDINGS

4-AA Western Division		
	(Div.)	(All)
Camden Lincoln	5-0	18-2
Malvern	4-1	16-2
Fairview	2-3	15-5
Hope	1-4	9-9
Arkadelphia	0-4	15-7

## Nets Caught on Their Own Comeback

Catch-as-catch-can proved a winning way for the Dallas Chaps, but the New York Nets got caught at their own comeback game.

Dallas, trailing Indiana through three quarters of their American Basketball Association game Tuesday night, rallied behind four 20-point scorers and downed the Eastern Division leaders 126-122.

## Fights

By THE ASSOCIATED PRESS  
ORLANDO, Fla.—Thomas Howard, 175, Bronson, Fla., knocked out Cody Gainer, 160, Orlando, 1.

Tijuana, Mexico—Lamu Nitte, 123, Japan, knocked out Chamao Ortiz, 125, Mexico City, 1.

## Jerry West Just Keeps Making Points

By THE ASSOCIATED PRESS  
A nine-game winning streak is old stuff to the New York Knicks, but to the Los Angeles Lakers, it means a fresh breath of first place.

The Lakers made it nine in a row Tuesday night when they rode the deadly shooting of Jerry West to a 124-114 victory over the Cincinnati Royals in Cleveland. The string has raised them into first place by a half game over Atlanta in the National Basketball Association's Western Division.

The Knicks, who already set an NBA record earlier this season with 18 straight triumphs, couldn't get nearly as excited when they beat San Francisco 118-98 in New York for nine consecutive victories. They hold a solid seven game lead over Milwaukee.

In other games, Boston defeated Chicago 93-85 and Seattle doubleheader in Baltimore and Phoenix turned back Philadelphia 131-123.

In the American Basketball Association, Carolina clobbered New York 105-91, Washington beat Denver 142-125 and Dallas defeated Indiana 126-122.

Still playing without injured Wilt Chamberlain, the Lakers looked to West, who hit nine of 12 field shots and 21 points in the first quarter as Los Angeles built a 20-point lead. West finished with 38 points.

Offsetting Chamberlain's absence was the absence of Oscar Robertson, Cincinnati great who is out at least another two weeks with a severe groin injury.

The Knicks moved to a 62-47 halftime lead behind Walt Frazier's 19 points and then coasted as Willis Reed hit 17 of his 21 points in the final half and finished with 26 rebounds. Injuries to Jeff Mullins and Clyde Lee of San Francisco also helped.

Rookie Jo Jo White had 23 points and John Havlicek 21 as Boston pulled away to a 46-41 halftime lead against the frigid Bulls and had little trouble thereafter.

Seattle overcame a 59-53 halftime deficit behind Bob Rule's 29 points and 23 by Bob Boozer for a 116-113 lead that stood up. Phoenix' victory over Philadelphia moved the Suns into a tie for third place in the Western Division with the Chicago Bulls.

Phoenix broke the close game open with four minutes left, outscoring the 76ers 9-1. Connie Hawkins collected six of the points to give the Suns a commanding seven-point lead.

Billy Cunningham kept Philadelphia in contention with 40 points while Hawkins and Gail Goodrich topped Phoenix with 28 points each.

scoring 26 points for the Chaps, while teammates John Beasley and Ken Combs put in 23 and 20, respectively. Indiana's Bob Netolicky hit 32 and Roger Brown had 30 for the Pacers.

## \$30,000 Can Cure Many, Many Things

By BOB GREEN  
Associated Press Golf Writer  
PALM SPRINGS, Calif. (AP) — Pete Brown is a soft-spoken, reticent guy whose career has been marked by quiet determination.

He's the product of the caddy ranks on segregated courses in the South, of assistant jobs at little-known clubs, up from the qualifying ranks and a victor over polio.

Brown, one of the few Negroes on the pro golf tour, ended 17 years of obscurity when he caught the nation's fancy last week with a gripping charge that swept him past Jack Nicklaus and England's Tony Jacklin in the Andy Williams-San Diego Open Golf Tournament.

A national television audience watched him swing a club in apparent nervousness as he waited for Jacklin to tee off in the first hole of their sudden death playoff for the \$30,000 first prize.

"It wasn't that, being nervous, so much as I've got to keep moving or my muscles stiffen up," Brown said.

That's a hold-over from a polo attack that had Brown ridden for about 12 months in 1956-57. He still has muscular trouble in his back, arms and legs, "just all over," he said.

"I have to take off about every fourth week or so for a rest," Brown explained.

At 35, he has been a pro since age 18 and has been on the tour since 1963. But he was an unknown until he came out of the pack with that sparkling, seven-under-par 65 on the final round at San Diego.

Brown, a 6-foot-1, 195-pounder and one of the longest hitters among the tourists, joined the tour under the financial sponsorship of pro football star Jim Brown, no relation.

He won only \$920 his first year, then followed with his biggest season. He became the first of his race to win on the pro tour with a triumph in the Waco Turner Open, a victory that brought him only \$2,700.

Brown, the father of four daughters, made \$21,796 that year, but slipped to \$9,441 the following season and didn't make more until last year, when he won \$20,893 in 36 tournaments.

Brown, one of the gallery favorites today in the first round of the \$125,000 Bob Hope Desert Classic, was born in Mississippi and learned his golf as a caddy on a formula of "play three holes and run."

"We'd get out real early, six or seven in the morning before anybody else was there, or just before dark, play three holes and run," he recalled.

Now a Los Angeles resident, Brown held a variety of club jobs before joining the tour.

He suffered a back injury in 1965 that knocked him out of the tournament of champions and has hampered his play for some time.

"But it feels fine now," he said. "Just fine. That \$30,000 works a lot of cure."

## Reddies and Tigers Keep Up AIC Pace

By THE ASSOCIATED PRESS  
The Ouachita Tigers and the Henderson Reddies maintained a firm grip on their divisional leads in the AIC basketball race Tuesday night.

Quachita bumped off Harding 80-66 and Henderson whipped Southern State 66-50.

## Hope Teams Take 2 at Spring Hill

By BILL MOORE  
Last night the Hope B-Lizards and Kittycats won their games at Spring Hill with some fine playing.

The Junior girls started strong and coasted to a 48-24 victory with the reserves playing most of the game. The second game saw the B-Lizards come from behind to ease by their opponent in a thriller, 70-67.

Bonnie Willis hit Hope's first two with Janet McCain getting one and Carol Hobson two for a quick 5-1, lead with 4:38.

Five more by Hobson, three by McCain, and two for Willis finished the first segment with Hope leading 15-4.

McCain, Willis, and Hobson hit points for 20-6 lead with 4:49 left in the half and the reserves began to see the action.

McCain and Hobson hit four points each to give Hope 28-10 halftime margin.

The third quarter was a low scoring contest with Hope getting only four points while giving Spring Hill seven. Kariene Coleman and Gigi Gladney each got two points.

The Kittycats had no trouble in the last quarter outscoring the opposition, 16-6, for their seventh victory against seven losses.

Julia Brown got the first three points, and Cindy Roberts hit a pair of free throws for an easy 37-18 lead with just over four minutes to play.

Brown got two more, and the coming back into the game McCain got seven and Hobson two, to round out the scoring.

Others seeing action were Debbie Crank, Betty Ruth Honeycutt, Judy Reyenga, Rebecca Stuart, Carol Frazier, Anita McCaulley, Jill Herring, and Mona Rowe.

Overall, the defense did a fine job and the offense kept scoring for a balanced game.

In the second game the B-Lizards won a wild game, coming from behind in the last quarter to raise their record to 6 wins against 4 losses.

Hope quickly fell behind Spring Hill, 7-0, but fought back to trail, 24-18, at the quarter. Tim White and Tommy Webb had six each, and James Bradley, Steve Harris and Charles Rateliff two each.

In the second quarter Rateliff had one and Lynn Norton two, to trail by one, 24-23. The rest of the first half was a see-saw battle with the Spring Hill team on top, 33-31.

The second half was a dilly. Webb and Rateliff connected to give Hope a 36-35 lead, but soon fell back 44-39.

## Sick Call

NATE THURMOND, left, of the San Francisco Warriors, and Phil Nickro, right, of the Atlanta Braves have the audiences as they "point out" respective injuries. Thurmond tells reporters about his knee, and Nickro tells brother Joe, a pitcher for the Detroit Tigers, about the appendix he just lost.

## Rice Downs Hogs; Bears and TCU Tied

By THE ASSOCIATED PRESS  
Baylor head basketball coach Bill Menefee took this one lying down and he's just as happy that he did.

With Menefee in bed with the flu, it was left to assistant coach Carroll Dawson to direct the Bears to a cliff-hanging 83-81 overtime victory over scary Southern Methodist in the highlight of Southwest Conference basketball action Tuesday night.

"It was thrilling but it certainly was a funny feeling," said Dawson, who guided the Bears from a 10-point deficit in the second half to a 74-74 tie at the end of the game.

"When we got down by 10, I really started looking around (for Menefee)," Dawson said. "But then we started passing and caught up with them."

In other games on Tuesday's full slate, the shocking TCU Frogs slammed Texas 80-55; Texas Tech bombed defending SWC champion Texas A&M 84-66 and Rice downed Arkansas 76-69.

Larry Gatewood, who led Baylor with 29 points, sank a pair of free throws with five seconds left in the overtime to seal Baylor's victory.

The Bears and TCU now are tied for the lead with 5-1 records, followed by Rice with 4-2.

The Bears won it at the free throw circle hitting 23 of 26 attempts to 19 of 25 for WSMU. It was a real shootout from the field with Baylor hitting 52.6 per cent and SMU connecting 50 per cent of the time.

Texas Tech evened its SWC record at 3-3 in a sometimes tense battle against the Aggies in a game where three technical fouls were called.

Tech, hitting at a 50.8 per cent clip from the floor, downed the Aggies with a balanced scoring attack led by Greg Lowrey with 23 points. Three other Raiders hit in double figures.

TCU capitalized on frigid shooting by the Texas Longhorns to win their fifth league game in six outings after getting off to a slow start this season. The Frogs still are only 7-9 for the season.

The Longhorns, now 3-3 in the SWC race and 8-7 for the year, hit only 26.4 per cent from the field. Jeff Harp led TCU in scoring with 19 points and Eric Groscurth had 10 points to lead Texas.

## Willisville Going After The Champions

With one week to continue preparation for the Area 13 Senior Girls Tournament, the Willisville Lionettes have their eye on a win over last year's state Class B Champion, Bradley, when the two sextets clash in a first round game at Bradley February 9.

Some round ball followers and experts in Area 13 believe this game should be the championship battle but due to the proper drawing and bracket setup, the Willisville team drew the past champions in the first test.

Willisville is led in scoring by sophomore forward, Bettie Elliott, who has scored 717 points in the season record of 21 wins and 3 losses. The other two forward starters are seniors, Angelia Marlar and Nancy Camp, who have averages of 10 and 16 points per game, respectively.

Starters at defensive positions are sophomore, Nelwyn Pipkin, and juniors, Johnnie Lou Goodwin and Lynelle Herring. In December the Lionettes copped the Taylor Invitational Tournament and last week they won the Nevada County tournament. Their three losses this season came at the hands of Cale by 2 points, Bradley by 5 points, and by Guy Perkins in the Ouachita Tourney by 28 points.

Willisville, located in Nevada County south of Prescott, is a rural school and feels much pride in its senior girls team having a small enrollment in the upper four grades. There are 14 girls in these grades and 12 are on the squad. Coach Wyle Staggs, coaching in his 16 year at Willisville, has a right to be proud of his Lionettes. Coach Staggs believes in taking a game at a time. Willisville plays McNeil this week whom they have easily defeated earlier in the season and the Lionettes hope to face Bradley in next week's Area play with a 22-3 record on the line.

Not only does Willisville school and fans have pride in the senior girls but also the Junior Boys, recent Nevada County winners. Willisville Junior Girls and Lions have not accomplished as near impressive records this year as in the past.

Coach Staggs' Lionettes have not made a trip to the state tourney since he has been their coach and they have probable hopes this year provided they get by favorites in their Area tournament next week.

points and Matt Ganti 23 as the Bonnies upped their record to 14-1.

Charlie Scott popped in 30 points and Dennis Wuyek added 23 to face North Carolina by Virginia. The Tar Heels played without center Lee Dedmon and forward Bill Chamberlain. Virginia, sparked by Chip Case's 28 points and Bill Getty's 18, kept things close until the final minutes.

Baylor and Texas Christian remained tied for the Southwest Conference lead. The Bears nipped Southern Methodist 83-81 in overtime and the Horned Frogs ran away from Texas 80-55. Texas Tech trounced Texas A&M 84-66 and Rice beat Arkansas 76-69 in other SWC games.

Army, the nation's No. 1 defensive team, turned back Rutgers 61-52.

Little All-American John Rinck, a 5-foot-9 sharpshooter, racked up 42 points in Kenyon's 112-100 loss to Muskingum and became the eighth collegian to pass the 3,000-point mark. He has 3,012.

## Illinois Blows Lead, Loses to Wisconsin

By HERSCHEL NISSENSEN  
Associated Press Sports Writer  
Illinois had a lid on its basket in the season record of 21 wins and 3 losses. The other two forward starters are seniors, Angelia Marlar and Nancy Camp, who have averages of 10 and 16 points per game, respectively.

Starters at defensive positions are sophomore, Nelwyn Pipkin, and juniors, Johnnie Lou Goodwin and Lynelle Herring. ## Rupert H Is Feature Winner

SAN MATEO, Calif. (AP) — Rupert H., \$10.40, won the feature race Tuesday at the opening of the winter harness racing at Bay Meadows after a strike that lasted more than a month.

Smallest of the 206 bones in the human body is one of the three auditory ossicles in the middle ear.

## Special Agent for Players Seeking Cash

### By JACK HAND

Associated Press Sports Writer NEW YORK (AP) — This is the season when college football players dream of fat bonus payments, solid gold Cadillacs and six-figure contracts. However, the number of instant millionaires on campus has declined sharply in recent years.

The time has come for the college athletes to deal, either personally or through their agents, with the professional clubs who drafted them. In some cases it is an ego shattering experience.

Norman Young is one of those agents—or management consultants, as he prefers to be known. He operates the firm of Probus (pro business) Management, Inc. with his wife, Lenore, and several assistants in suburban White Plains, N.Y. The company offers a complete management package to the athlete.

If the athlete desires, Young's people will bank his pay check, invest his money, make out his tax returns and help him build a publicity image.

Young, an accountant, tax expert and business manager of doctors before he formed his own company, says he represents 13 of the collegians recently drafted by pro football teams. Among them are two first-round picks, Cedric Hardman and Duane Thomas of West Texas State. Hardman is a defensive end who was drafted by the San Francisco 49ers and was the ninth player selected among the 442 who were taken in the full 17 rounds. Thomas is a running back, grabbed by the Dallas Cowboys as No. 23.

When and if the contracts are negotiated, Young's firm will take 10 per cent as a fee. This covers such services as preparing tax returns, handling of money for living expenses and conservative investments in stocks or business ventures, publicity and aid in securing off season employment. The firm provides a monthly statement of the client's financial picture.

"I think the average athlete needs somebody to help him when he gets into the business world," said Young. "You would be surprised how many doctors have business problems. They're so engrossed in their work that they neglect such things as fees, income tax and general management."

Naturally, Young dodges using names when he talks about the affairs of his players. He did tell an amusing tale though.

"One fellow had been sent a gasoline credit card by an oil company while he still was in college. He ran up a \$1,500 tab with no money to pay it. Included on the bill were 15 new automobile tires. 'Do you want to hear the kicker?' The fellow doesn't have a car."

## More Papers Asked in Baseball Suit

NEW YORK (AP) — Federal Judge Irving Cooper, likening himself to an umpire, has given attorneys of both sides 20 days to file additional papers in the suit against baseball by Curt Flood.

Judge Cooper heard arguments Tuesday in U.S. District Court concerning Flood's request that baseball be enjoined from preventing him to act as a free agent.

Flood, a \$90,000-a-year outfielder, contesting his trade by the St. Louis Cardinals to the Philadelphia Phillies, contends baseball's reserve clause violates anti-trust laws. The reserve clause binds a player to one team until he is traded or sold.

Judge Cooper compared himself to an umpire who "calls them as he sees them."

"That I shall do," he said, "You've thrown the ball to me — I hope I don't miff it."

Arthur J. Goldberg, a former Supreme Court associate justice and former ambassador to the United Nations, who is representing Flood, told the court:

"Flood decided he cannot play under an illegal system — and I agree. He is not willing to be sold into servitude."

"Football operates under anti-trust laws and seems to be doing pretty well."

Atty. Mark F. Hughes, representing the major leagues, and Paul Porter, counsel for the baseball commissioner, denied there was any violation of anti-trust laws.

The U.S. Supreme Court, in two previous decisions, upheld baseball on the grounds it was a sport and not inter-state commerce.

NO CIVIL DOCKET TODAY

"TURN LEFT AT ABRAHAM'S WELL." The sideroads near Beersheba, the city known as Israel's capital of the Negev, are shared by both contemporary travelers and a camel-riding Bedouin. In recent years, the Bedouin have been abandoning their traditional wanderings and settling on the land, while modern man in a reversal of roles is spending more and more time on the road.

## Patriots Are Still Looking for a Home

BOSTON (AP) — The old saying "the grass always looks greener across the street" appears to apply to the homeless Boston Patriots.

Bill Sullivan, president of the Patriots, still hopes to keep the pro football franchise in Boston, but the line of applicants from cities throughout the country and Canada is growing.

On the docket today was a meeting with Gov. Claude Kirk of Florida, who would like the team to move to Tampa or Jacksonville.

Sullivan, who says the Patriots must make a decision by March 15, also agreed to meet "sometime Thursday, probably in New Hampshire," with Gov. Walter Peterson of that state. Peterson wants to discuss the possibility of building a suitable stadium in southern New Hampshire, about an hour's drive from Boston.

"We've also been contacted by Canadian cities seeking the Patriots—Toronto and Montreal," he added. "Frankly, their initial proposals are quite attractive."

Also contacting Sullivan were officials and groups in Seattle, Tampa and Jacksonville, Memphis, Tenn., Birmingham, Ala., and Kentucky. All have told the Patriots in the past.

The flood of phone calls and telegrams began anew Monday when the Harvard Corporation re-affirmed a decision barring the Patriots from the university's stadium. The club has requested a lease for its seven home games.

Under terms of the American Football League merger with the National Football League this year, all clubs must have stadiums with a 50,000-seat capacity. Harvard is the lone stadium in Greater Boston which could meet that standard.

"We like it here and we would like to stay here," Sullivan said, "but we have people really ready to roll out the carpet."

"However, we have taken a general position that, as a publicly owned corporation, if someone wants to talk to us, we owe it to everyone to sit down and talk."

Since Harvard's refusal, there have been several proposals. They include taking Fenway Park, home of baseball's Red Sox, by eminent domain and enlarging it and taking Harvard Stadium by eminent domain. Neither has much support in the Massachusetts Legislature.

Another recent proposal is to enlarge White Stadium, which has a 10,000-seat capacity and is used by schoolboys in Boston.

Sullivan is hopeful that some firm plan for a permanent home for the Patriots can be realized quickly. In that event, he thinks Harvard might consider leasing its stadium on a one-year basis.

self to an umpire who "calls them as he sees them."

"That I shall do," he said, "You've thrown the ball to me — I hope I don't miff it."

"Flood decided he cannot play under an illegal system — and I agree. He is not willing to be sold into servitude."

"Football operates under anti-trust laws and seems to be doing pretty well."

Atty. Mark F. Hughes, representing the major leagues, and Paul Porter, counsel for the baseball commissioner, denied there was any violation of anti-trust laws.

The U.S. Supreme Court, in two previous decisions, upheld baseball on the grounds it was a sport and not inter-state commerce.

NO CIVIL DOCKET TODAY

## Defenseman Out 3 Games

By THE ASSOCIATED PRESS PHILADELPHIA (AP) — Dick Cherry, a defenseman with the Philadelphia Flyers of the National Hockey League, will miss the next three games because of a broken toe on his left foot.

## John Carlos Anything But Bashful

By RON ROACH Associated Press Sports Writer SAN DIEGO (AP) — John Carlos, the world's fastest human, says unabashedly he'll be just as unbeatable as a pro football player as he is sprinting the 100-yard dash.

"My mental attitude is superior to Jimmy Hines, Bob Hayes and all those cats," Carlos said Tuesday of other top sprinters who have gone into pro football. "They think they can be beat. I can't be beat. I'll just apply that attitude to football."

The 24-year-old native of New York City, who shares the world record of 9.1 seconds in the 100-yard dash, was the Philadelphia Eagles' 15th-round draft choice.

Although he wasn't a high draft choice, Carlos told the San Diego Sportscasters - Sports-writers Association meeting he expects a big salary from the Eagles. Without quoting a specific figure, he said:

"I told 'em we'd start at \$1 million and work down to something decent. I don't want to start at \$400,000 and work up to a million."

Carlos, who attended San Jose State, doesn't think he's handicapped by lack of college gridiron experience. "I'll be so rich I'll throw my track shoes in a fire."

"I haven't played college ball," he said. "But I've played quite a bit of street football. And to me street ball is more important than college ball. I've taken some hard knocks on concrete playing in the street and come back to play again the next day."

He plans to add 20 pounds to his 6-foot-3, 205-pound frame. "Two-hundred-five would be a good running weight. I could shake off tacklers. I'd like to be a running back."

"Any big linebacker coming at me has to know his job. I'm going to have to know my job better. I'm going to run just scared enough to get away."

Carlos doesn't believe added weight will diminish his speed too much.

Meanwhile he promised to break the world records in the indoor 60-yard dash and the outdoor 100 before turning pro.

"I expect to break 9.0 this summer," he said. He will try to break the mark of 5.9 for the indoor 60-yard dash, which he shares with several others, Feb. 20 in the San Diego Indoor Games.

"I don't want to sound cocky, but the watch will be my main competition," he said.

Carlos hasn't lost a race since last June in the National AAU meet in Florida. He was beaten by Ivory Crockett of Southern Illinois.

## Services Added to Race Purse

ATLANTIC CITY, N.J. (AP) — Services to Buckpasser, Northern Dancer and Jaipur will be part of the purse for this year's Matchmaker Stakes at the Atlantic City race course on Oct. 3.

## Mt. Pleasant Player Upset

HARLINGEN, Tex. (AP) — Merle Boeck of San Antonio upset Dr. John Kennedy, Mount Pleasant, Tex., 2 and 1, in the first round Tuesday of the Life Begins at 40 Golf Tournament. Dr. Kennedy was runnerup in the tourney last year.

## Tommy Brasher Joins Porker Grid Staff

HOT SPRINGS, Ark. (AP) — Tommy Brasher, head football coach at Hot Springs High School for the past four seasons, resigned Tuesday to become a coach for the University of Arkansas freshman team.

Brasher, a native of El Dorado and a former Razorback player, compiled a 15-36-1 record at Hot Springs. He also formerly coached at Ball High School, Galveston, Tex.

## Seeks Way to Keep Railways in Operation

WASHINGTON (AP) — A key Labor Department official says President Nixon will ask Congress for special legislation to halt any renewed threat of a nationwide rail shutdown if a wage settlement is not reached by negotiators.

Assistant Secretary of Labor W. J. Usery said, however, that he had hopes of meaningful talks between representatives of four AFL-CIO shopcraft unions and industry negotiators.

The negotiating teams are meeting here under talks arranged by Usery over the weekend.

U.S. District Judge John J. Sirica on Saturday halted a shopcraft strike against the Union Pacific Railroad and a threatened nationwide lockout called by the industry in retaliation. His restraining order runs out Feb. 10.

Nixon has exhausted all delaying procedures under existing federal labor law to stop any new strike or lockout.

## Asks Dismissal of Suit by Educator

LITTLE ROCK (AP) — The Pulaski County School Board asked U.S. District Court Tuesday to dismiss a suit brought by Dr. Howard Heldbrink, who seeks reinstatement as the county school superintendent.

Heldbrink also asked for payment of salary he would have received if he had not been dismissed last November.

The district seeks dismissal of the suit on grounds that the

## Israeli Is Discounting Threat of War

### By FRANK R. FORD

WASHINGTON (AP) — Even if military sources claim there is less likelihood of a Middle East war developing now than last summer, Israel and Arab leaders are not taking the bait.

These sources regard the Soviet Union's warning to the United States and other Western powers as a play designed to back up Arab morale.

Though concerned about any additional Russian aid to Egypt, they discount the idea that it would impel the Arabs into a major thrust. They also discount the possibility of any direct Soviet intervention in the war.

Despite the re-equipping of the Egyptian army and the force and the guidance of about 3,000 Soviet advisers, the Israelis said, the battles of the past seven months have demonstrated the Egyptians are not ready to undertake any big offensive.

The Israeli military sources claimed the Russians have given Egypt about \$2 billion in arms and equipment since the forces of President Gamal Abdel Nasser lost much of their Soviet-provided gear in the six-day war of 1967.

But the Russians haven't yet been able to get the Egyptians to use their weapons and materiel effectively, the Israelis said. They praised the Soviet equipment as first rate.

The Israeli military men indicated both sides have learned from the fighting, which has raged more or less continuously since last July, though on a limited scale. But they sounded confident the advantage still is with their pilots and ground fighters by a wide margin.

The Israelis said the Russians now do most of the operational planning for the Egyptians, as well as manning certain of the sophisticated equipment.

No Russians have flown combat in the Suez Canal air battles, they said. But they indicated a belief that Russians are present in surface-to-air missile sites. This raised the possibility some Soviet advisers could have been killed in Israeli strikes against such sites.

The Israeli military sources implied they are far from impressed by the

# LINCOLN and ALLEGIANCE

Abraham Lincoln in 1860.

Preservation of the Union was the prime concern of President Lincoln. And he had to try to maintain it in the face of the most divisive conflict which can assail a nation—civil war.

He delayed the Emancipation Proclamation for two years, hoping that some solution could still be found, even after the actual outbreak of the war, and he continued to search for ways of bringing about peace. He looked forward to reconciliation and healing after the war—which he never lived to see.

The Oath of Allegiance (right), published here for the first time, was issued by Lincoln's Administration for use during the Civil War. It was specially worded to counteract "any ordinance, resolution, or law of any State Convention, or Legislature" (such as that shown in the lower left-hand corner of the page). The document is from the U.S. Customs Documents collection of Mr. Ernest L. Chambre of New York City. The oath was sworn before a collector of Customs; Customs was the main income of the government till the Civil War.

## OATH OF ALLEGIANCE AND TO SUPPORT THE CONSTITUTION OF THE UNITED STATES.

District and Port of Alexandria.

*S. D. Prunk* do solemnly  
*Swear* that I will support, protect, and defend  
the Constitution and Government of the United States against all  
enemies, whether domestic or foreign, and that I will bear true faith,  
allegiance and loyalty to the same, any ordinance, resolution, or law of any  
State Convention, or Legislature, to the contrary notwithstanding; and  
further, that I do this with a full determination, pledge, and purpose,  
without any mental reservation or evasion whatsoever; and further, that  
I will well and faithfully perform all the duties which may be required  
of me by law. So help me God.

*Sworn* and subscribed, this *15* day  
of *May* in the year of our Lord one  
thousand eight hundred and *seventy*

*S. D. Prunk*

*Robert K. Bell Jr.*  
*Dep Collector*

Oath of Allegiance, issued by Lincoln's Administration, used during the Civil War.

## EXTRA CHARLESTON MERCURY

Printed unanimously at 1.15 o'clock, P. M., December  
20th, 1860.

### AN ORDINANCE

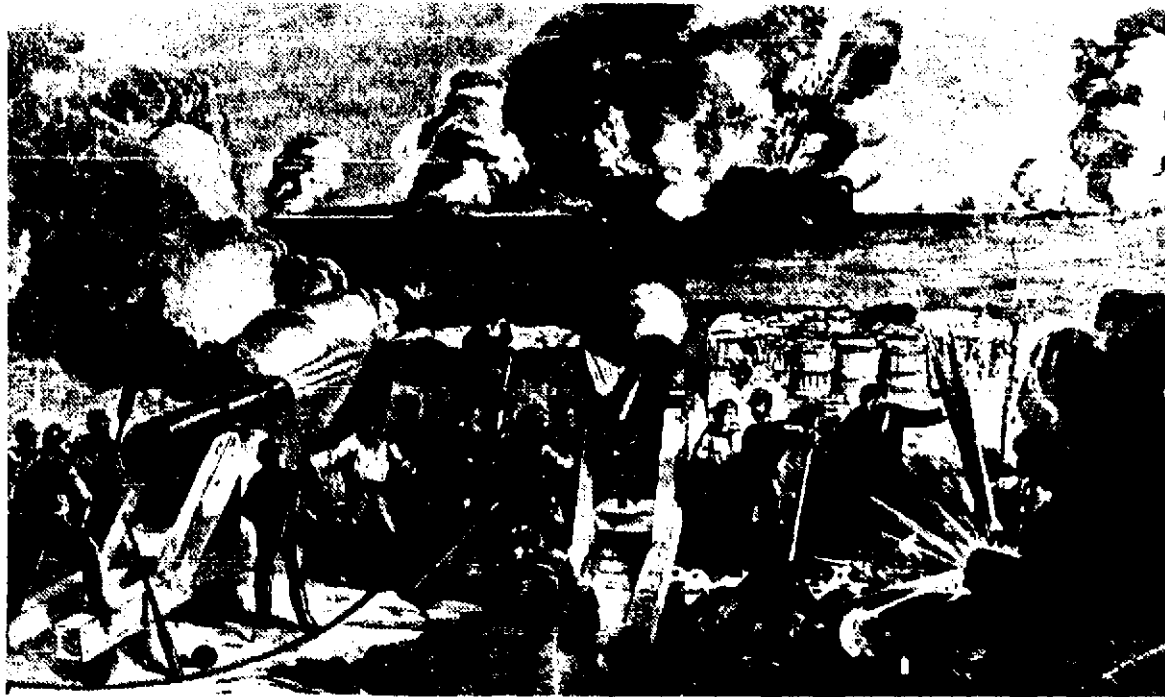

To dissolve the Union between the State of South Carolina and  
other States united with her under the compact entitled "The  
Constitution of the United States of America."

We, the People of the State of South Carolina, in Convention assembled do declare and ordain, and  
it is hereby declared and ordained,

That the Ordinance adopted by us in Convention, on the twenty-third day of May, in the  
year of our Lord one thousand seven hundred and eighty-eight, whereby the Constitution of the  
United States of America was ratified, and also all Acts and parts of Acts of the General  
Assembly of this State, ratifying amendments of the said Constitution are hereby repealed;  
and that the Union now subsisting between South Carolina and other States, under the name of  
"The United States of America," is hereby dissolved.

## THE UNION IS DISSOLVED!

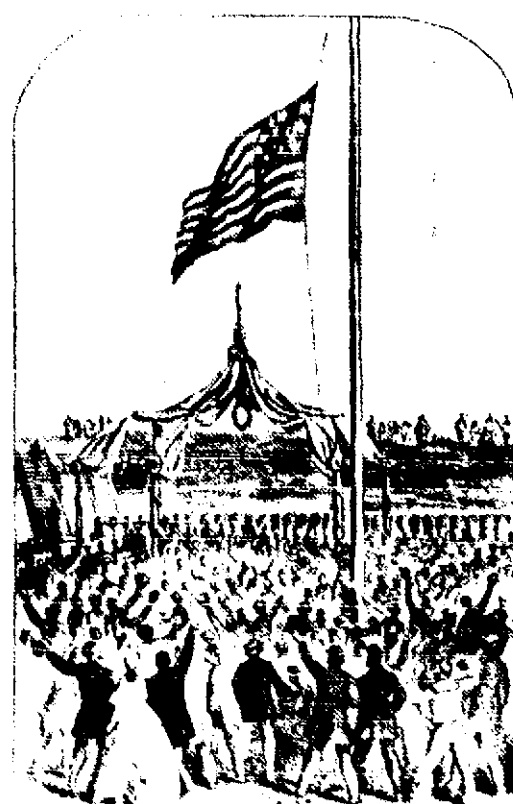

South Carolina leads the secession from the Union.

April 1861. Firing

### School Tax Meet: Hope Melon News Abroad

Your attention is called to a second meeting of the Citizens Committee on school taxation which will be held at 7:30 p.m. Thursday, Feb. 5, in the upstairs meeting room of the Education Building (old Post Office), Second and Walnut Sts. congressional experts at between \$16 billion and \$17 billion. The committee is working for unclassified estimates that put the school tax increase proposed in the March 10 school district election, and all interested citizens are invited to Thursday's meeting, according to June 30.

A note from John McLeod dated Feb. 2 at 707 E. Division St., Hope, reports on the fame of Hope's big watermelons as far away as Paris, France. McLeod—former announcer for Radio Station KXAR and broadcaster of Hope Bobcat football games—writes as follows: "Have been meaning to send you this clipping from the Paris (edition of) Herald-Tribune (New York) ever since I noted it in their Sept. 12 edition. Due to the delay it certainly has lost its news value but you and Pod (Pod Rogers and Carter Russell) may still get a chuckle out of it. Best regards

JOHN McLEOD  
Here is the reprint item:

### ARKANSAS MAY GROW BIG MELONS, BUT CALIF. ORNIA GROWS BIGGER FELONS

HOLLYWOOD, Sept. 11 (Los Angeles Times Wire)—The 135-pound "brag watermelon" is missing — apparently stolen — and the folks in Hope, Ark., are "raht put out."

It seems Hope (pop. 10,000) sent the melon here in custody of C.M. (Pod) Rogers Jr. to appear on the Glen Campbell TV show.

Campbell falls from Delight, Ark., 25 miles north of Hope, which makes him an "ol' boy from back home."

Well, sir, Pod and a friend stopped for a late snack at a Sunset Boulevard cafe, and when they returned to the car "the dang thing was plumb gone."

"Must've been a real man took that melon," Pod reflected. "It took me and a friend and a tow sack to get it into the car."

Fortunately, he said, he has four other Hope melons almost as large.

"I reported the theft to Hollywood police," Pod said. "But shucks, we won't get it back. That melon's nothing a feller could sell, but it'd eat real good."

## Shortage in Money at Jacksonville

JACKSONVILLE, Ark. (AP) — Prosecutor Richard B. Addison of Little Rock said Tuesday an audit had shown a shortage of several thousand dollars in the Jacksonville Water and Sewer Department.

Mayor John Harden said the shortage was discovered about two weeks ago during a regular audit of the department by R. M. Brown & Co.

Representatives of the city and the auditing firm met for 2½ hours Tuesday with Addison. Addison said the matter "probably is a case for the Grand Jury."

The prosecutor said the audit had not been completed and officials wouldn't know the full amount of the loss until it was finished. Harden said the audit probably would be finished within two weeks.

Addison said auditors discovered that receipts for department disbursements from March 1, 1969, through November 30 were missing.

## Woman Enters as Candidate

WEST MEMPHIS, Ark. (AP) — Mrs. Goldy H. Bassett, 40, of West Memphis joined three men Tuesday as a candidate for mayor in the March 10 election.

Mrs. Bassett, W. S. Cheek, Tilden Rogers and A. O. Shaw have filed to fill the unexpired term of R. L. Eden, who resigned as mayor last month.

## Thinks Secret War Budget \$17 Billion

By WALTER R. MEARS  
AP Political Writer  
WASHINGTON (AP) — President Nixon's secret budget for the Vietnam war in the coming fiscal year is estimated by the Education Building (old Post Office), Second and Walnut Sts. congressional experts at between \$16 billion and \$17 billion. The committee is working for unclassified estimates that put the school tax increase proposed in the March 10 school district election, and all interested citizens are invited to Thursday's meeting, according to June 30.

Nixon's new budget, which went to Congress this week offered no estimate of the cost of the war during the year starting next July, and this secrecy has drawn a protest from a ranking Democratic critic of U.S. policy.

"I can see no justification for classifying the cost of the war," said Sen. J. W. Fulbright of Arkansas, chairman of the Senate Foreign Relations Committee.

The Nixon budget said new estimates would offer a tipoff to the size or the timing of future American troop withdrawals.

"I don't think he really knows how much will have to be spent before July 1971," Sen. George D. Aiken of Vermont, senior Republican member of the Foreign Relations Committee, said in an interview.

"Certainly, he has to have flexibility. Costs have been materially reduced in the past few months."

Congressional appropriations experts, basing their estimates on current spending, announced U.S. troop withdrawals, and the likelihood of further pullbacks later, have produced the \$16 to \$17 billion estimate.

Secretary of Defense Melvin R. Laird said Jan. 7 he anticipated outlays between \$17 and \$18 billion for conduct of the war during the new fiscal year.

"If everything goes as planned, I would say that is a maximum figure," Aiken said of the Laird estimate.

## Strong Quake Off Coast of Mexico

MEXICO CITY (AP) — A strong earthquake, believed centered off the southern coast of Mexico east of Acapulco, shook Mexico City tonight. But police said no damage was reported in the capital or in Acapulco.

The Tacubaya Seismological Station said the quake had a force of 6.3 on the Richter scale. Seismologist Lorenzo Dominguez Durgute added in a communique that the center of the quake was 285 miles southeast of Mexico City, probably off the coast of Oaxaca State.

## Get Accustomed to a New Thing, Another Newer One Pops Up

By HAL BOYLE  
NEW YORK (AP) — Our lives are swept by winds of change.

As soon as we get accustomed to a new thing, it is replaced by something newer. We can't go home again, because if we do we find the old home has been torn down, so that some stranger can erect an apartment building or a glorified hamburger stand on its site.

All this incessant change baffles us, confuses us, makes us nervous. We seek the security of an anchor to cling to, something changeless and true, something impervious to time.

"Isn't there anything we can count on to stay the same?" we ask ourselves desperately. Why, of course, there is. There are lots of things you can depend on.

Such as:

A shoestring will never break except when you are in a hurry.

The shoestretcher in the bottom of a box you buy at a fruit stand will be greater than those on the top.

No matter how mean a letter you write to your long-lost woman, you'll always get a soothing letter back.

Any clock in a hotel lobby will be from three to five minutes late.

No matter how many closets they build in an apartment,

## Tone Suggests Russia Group Wants \$450,000 Bond Issue Is Frightened by Threat Secret Ballot Passed Overwhelmingly of War in Mid-East Guarantee

By WILLIAM L. RYAN  
AP Special Correspondent  
The tone of the Kremlin's diplomacy suggests that it is frightened by the prospect of a gathering storm over the Middle East. It may mean that Moscow is unwilling at this time to face a new major crisis and is seeking some way to head it off.

While its bargaining may be tough, Moscow appears concerned that its whole foreign policy drive may be thrown into a tailspin by the intensifying Arab-Israeli hostilities.

In its latest note to Washington, Moscow has threatened to escalate the arms race in the Middle East by sending more arms to Egypt. Yet the thrust of its diplomatic activity suggests deep worry. The Kremlin has been sending out warnings to the Americans, British and French of rising peril in the Middle East as if the Russians were digging in for a round of horse-trading.

The Middle East is a tangle for both superpowers. For each, more is at stake than just its explicit interests in the area.

For the Russians, a red hot new crisis could upset plans to take some of the heat from East-West relations in Europe, for both it can jolt whatever hopes have been invested in SALT, the strategic arms limitation talks due to reopen in Vienna in April. Washington and Moscow have parallel interests in limiting superweapons. For each, the race has been a heavy drain. This has been especially true of the Soviet Union, which has been wrestling with problems of a consumer economy suffering from neglect because of the arms race.

In a major policy address last week, Soviet Premier Leonid Brezhnev said the Soviet Union was "not going to capitulate on the education bill."

Nixon's new proposal, sent to Congress Tuesday, makes official a compromise he put forward last week to help get the necessary votes to sustain his veto of a \$19.7 billion education-health bill.

The \$449 million Nixon is now willing to spend over his budget amounts to a 63 per cent cut in the \$1.2 billion Congress added to the vetoed bill. Some of the key Democrats who helped aid the original funds, say they will fight any cut that amounts to more than 10 per cent.

The battle is now being fought in a House appropriations subcommittee where little progress was reported Tuesday after another session. Members said there was only an outside chance that a bill would be ready for House action before Congress takes a week-long recess starting Feb. 10.

In a letter outlining his new proposal Nixon said the extra \$449 million "does not contribute unduly to inflationary pressures which today are of serious concern to the entire nation."

He vetoed the \$1.2 billion increase because of its impact on inflation.

Nearly half the added funds—\$238 million—would be for the

## Agnew Declares Senate War Critics Seeking a Political Issue

By CARL P. LEUBSDORF  
Associated Press Writer  
WASHINGTON (AP) — New Senate hearings on Vietnam have opened with blasts from four war critics and an answering salvo by Vice President Spiro T. Agnew that the opponents were "casting about aimlessly" for a political issue.

Chairman J. W. Fulbright said he hopes the hearings that began Tuesday before his Senate Foreign Relations Committee will lead to a consensus on a resolution concerning Vietnam policy, although the Arkansas Democrat conceded "it is much too soon to begin picking and choosing among the various resolutions."

Agnew, in telling newsmen Tuesday the war critics were fishing for a political angle, said the people are behind the administration's Vietnamization policy "and no amount of self-serving statements by opposition senators are going to change that."

Sen. Hugh Scott of Pennsylvania, the GOP leader, scheduled an appearance before the committee today on behalf of his

## Group Wants \$450,000 Bond Issue Is Frightened by Threat Secret Ballot Passed Overwhelmingly of War in Mid-East Guarantee

By HARRY KING  
Associated Press Writer  
LITTLE ROCK (AP) — The Constitutional Convention wrote into the proposed new constitution Tuesday a provision that would guarantee secrecy of the ballot.

The provision says: "All elections shall be by voting devices which insure the secrecy of individual votes, or by secret ballots guaranteeing that the vote of the individual cannot be known."

It does not say how the secrecy would be insured.

Opponents argued that the proposal would make it virtually impossible to contest elections.

Answered Mrs. Dorothy Stuck of Marked Tree: "Shall we be concerned about the minority of the people who are running for office and the lawyers who defend them, or the majority of the people — the 700,000 who have a right to a secret ballot?"

Under the current system, a voter who does not have access to a voting machine receives a number and a ballot with a corresponding number when he enters the polling place. It would be possible to determine how a person voted in a particular

## \$450,000 Bond Issue Is Passed Overwhelmingly by Voters of County

### 23 Enemy Killed by Helicopters

By GEORGE ESPER  
Associated Press Writer  
SAIGON (AP) — American reconnaissance helicopters spotted 23 North Vietnamese troops moving down a stream bed 21 miles north of Saigon Tuesday night, and 23 were killed by helicopter gunships, bombers and artillery, military spokesmen reported today.

No American casualties were reported, although some of the helicopters drew small arms and rocket-grenade fire.

Military spokesmen said eight groups of North Vietnamese were spotted moving to the southwest.

"The North Vietnamese ran into a bamboo thicket," said S. Sgt. L.E. Perkins of Franklin, La., a helicopter crewman.

They fired into the thicket and the North Vietnamese

### AP News Digest

By THE ASSOCIATED PRESS  
WASHINGTON (AP) — Congressional experts estimate that President's Nixon's secret budget for the Vietnam war during the 1970-71 fiscal year is between \$16 billion and \$17 billion. The lack of an estimate for war costs in the budget Nixon sent to Congress this week has drawn protests secrecy is unjustified.

SAIGON (AP) — Military spokesmen say 23 North Vietnamese troops have been killed by helicopter gunships, bombers and artillery after 100 troops were spotted in a stream bed near Saigon by American reconnaissance helicopters.

NEW YORK (AP) — A statement by Treasury Secretary David M. Kennedy hinting that lower interest rates may be "closer than most people realize," stimulated a stock market rally Tuesday with the Dow Jones industrial average closing ahead more than 11 points.

The two unions that bargain nationally with the General Electric Co. have announced that their members have approved a new contract, ending a strike which began Oct. 28. However, nine unions that bargain locally — and must sign a total of 80 agreements — are just voting on pacts or remain in negotiations and it is still uncertain when GE will resume full operations.

WASHINGTON (AP) — President Nixon, in a new proposal for health and education appropriations submitted Tuesday, has offered to increase the original requests by \$449 million. Democratic leaders say, however, that they are willing to risk another veto to prevent most cuts from the bill the President returned to Congress last month.

WASHINGTON (AP) — The Senate Judiciary Committee, in closed session after completing hearings on the nomination to the Supreme Court of Judge G. Harrold Carswell, has had the question of electoral reform mixed with the nomination. Sen. Birch Bayh, sponsor of the electoral reform measure which is also before the committee, has asked that a time be fixed for a vote on it before action is taken on the nomination.

Farm Bureau Meet Thursday  
The regular monthly Farm Bureau meeting will be Thursday, February 5 at 7:30 p.m. at the Farm Bureau Office, according to Audrey Wilson, President.

The membership drive is well on its way and Lester Kent, chairman, asks all captains and workers to attend the meeting Thursday night for a checkup.

Hope Fireman had a second run Tuesday afternoon to a service station at Third and Shover Streets where a woman had tossed a lighted cigarette into the rest room waste basket and it began to smolder. Firemen were called but there was no damage.

Local Housing Authority Officials from 74 Arkansas Cities will be in North Little Rock Feb. 9-10 for a Shirtsleeve Maintenance Clinic. Attending will be housing directors from Emmet, Hope, Amity, and Prescott from this area. Mike Kelly is head of the local Authority.

Mr. and Mrs. Tommy Lynn Bright (she is the former Brenda Underwood) both made the Dean's List in Oklahoma State University at Stillwater for the fall semester. They are the son and daughter, respectively, of Mr. and Mrs. E.O. Bright and Mr. and Mrs. Howard Underwood.

Arkansas Highway Department will open bids Feb. 25 on 10 projects, two in Hempstead County. One is the building of two weight stations on Interstate 30 about four miles southwest of Highway 4 Interchange north of

## 1,674 Favor Issue, Only 92 Against

Hempstead County voters went to the polls Tuesday and overwhelmingly passed a \$450,000 bond issue to enable Standard Generator Co. to expand its plant here and hire an additional 100 employees.

The vote was 1,674 for the issue and only 92 against. The measure carried every precinct in Hempstead County. The largest vote against in any precinct was 15 and that came in Box 5 of Hope; there were nine against it at Burke's Store and seven at McCaskill.

It is figured that the expansion will create at least 150 or more new jobs which will bring into Hempstead over \$800,000 per year in new income. The bond issue was passed under provisions of Act 9 and no tax increase is involved. The bonds will be paid off by Standard Generator Co. Here's the vote by precinct:

## School Tax Meet Is Set Thursday

Wayne Russell, chairman of the Citizens Committee in behalf of the local public schools, made the following announcement today:

"Our School District Election will be held March 10. Between now and then many people will be influenced to vote for or against the millage increase which has been announced by the School Board. It is the intent of the Citizens Committee to present the facts concerning the need for increased funds for our schools. We feel that an informed citizenry will act favorably in this matter."

"Your help is needed and we invite you to join in this effort. Our next planning session is scheduled for Thursday, Feb. 5, 7:30 p.m. in the upstairs meeting room of the Education Building (old Post Office). At this time we will outline those specific actions to be taken and also will make some job assignments."

"We will be holding a meeting at the local Authority."

Mr. and Mrs. Tommy Lynn Bright (she is the former Brenda Underwood) both made the Dean's List in Oklahoma State University at Stillwater for the fall semester. They are the son and daughter, respectively, of Mr. and Mrs. E.O. Bright and Mr. and Mrs. Howard Underwood.

The Brooklyn Heights Casino is a social and tennis club that entered a team in the first Brooklyn team championship back in 1933. The team qualified for two final knockdown rounds and went on to win. They were so surprised by their victory that they retired undefeated. Three of the members never entered another tournament.

Today you are the late Thomas P. Sturgis playing the South hand in the final round. P. Hal Sims, one of the greatest players of all time, opens the queen of clubs against you and since Edward Hymes Jr. sitting East is another all-time great, it is up to you to make the contract without any help from your opponents.

Now let's try to follow Tom's reasoning. Here it is: "I want to make my contract and overtricks aren't important. If diamonds behave there will be no trouble with it. But let's see if I can't find the safest possible line of play. There is no point ducking the first club. It looks as if I should start with the spade suit and keep the diamonds for later."

"I will win the first trick in dummy and lead a spade to my queen. What do you know? The spade finesse has worked. Now if I can make four diamond tricks I am home. Isn't there some sort of safety play with this diamond combination?"

"Sure, there is. I can play my ace of diamonds first and then lead a diamond toward dummy. If West shows out I will rise with dummy's king."

"It seems that West has followed. Now all I have to do is play dummy's nine. It is just as well I played it this way, since the nine has held. Now I take dummy's king, repeat the spade finesse, give Sims a trick with his queen of diamonds and make my contract with an overtrick."

## THE DOCTOR SAYS

Human Body's Mechanism Contains Many Minerals

By WAYNE G. BRANDSTADT, M.D.

Having dealt in the past with several elements found in the body in minute amounts, I was interested to find a report on several I had not included. Fortunately, there is little danger of your developing a deficiency of any of the elements if you get a well-balanced diet. Furthermore, most of them are present in your water supply.

Molybdenum, like manganese, is necessary for normal metabolism, growth and bone formation and, like fluorine, it helps to protect children from getting dental cavities. When combined with iron it helps (more than iron alone) to prevent anemia, especially during pregnancy.

Vanadium is poisonous in relatively small doses but minute traces are of value in holding down the level of cholesterol in your blood. There are, however, safer ways to bring down a high cholesterol level.

The role of nickel in the body is still not well understood. It is found in the liver and kidneys of 69 per cent of the inhabitants of New York City and Chicago but not in those of the remaining 31 per cent or of any citizens of Miami, Fla. It is present in the lungs of all persons, regardless of their location, and the amount present increases with age. Authorities doubt that it is an essential element, but in the amounts found it appears to do no harm.

Another highly toxic element, selenium, helps to preserve one's youth by blocking the oxidation of certain fats. But this function is more safely and more easily achieved with vitamin E.

Lithium, like most metallic elements, is poisonous in small amounts, especially in persons on a low-sodium diet. Its use in medical practice has recently been revived. It is an effective treatment for acute depression.

These observations serve to point up the fact that the difference between what is healthful and what is deadly poison is often only a matter of the amount taken.

Q-I am a woman, 61. I have heart trouble and am allergic to many drugs. Where can I get an emergency medical identification tag to warn doctors not to give me those drugs if I become suddenly unconscious?

A-Write to the American Medical Association, 535 N. Dearborn, Chicago, Ill. 60610. (Newspaper Enterprise Assn.)

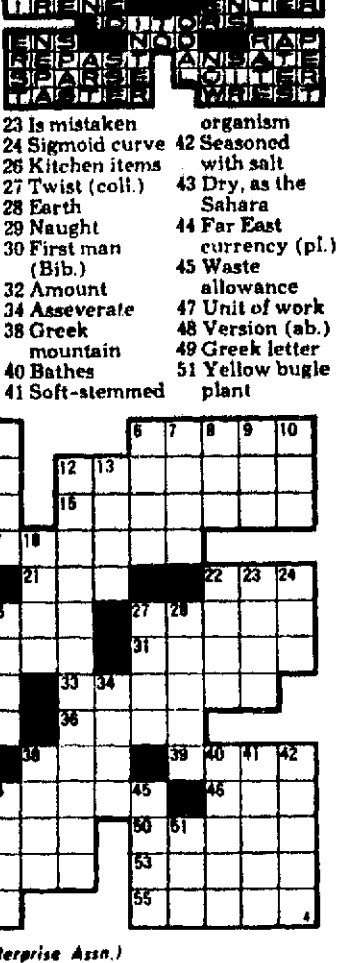

Please send your questions and comments to Wayne G. Brandstadt, M.D., in care of this paper. While Dr. Brandstadt cannot answer individual letters, he will answer letters of general interest in future columns.

## Candle Fish

The eulachon, a species of fish found in the north Pacific, is so fat and oily that when dried it can be used as a candle or lamp by merely drawing a wick through it.

Another highly toxic element, selenium, helps to preserve one's youth by blocking the oxidation of certain fats. But this function is more safely and more easily achieved with vitamin E.

Q—In Great Britain, what does the term "bank holiday" mean?

A—The same thing that the term "legal holiday" means in the United States.

Q—What is the origin of the expression "to shell out," meaning "to pay"?

A—In the early days of bartering, objects such as skins, shells and metal objects served as the first money. Hence, the expression comes from the use of shells as money.
